

AWS Detroit Section Technical Meeting

Date: **Thursday, April 11, 2019**

Location: **CenterLine (Windsor) Limited
Mechatronics Div.,
6290 Morton Industrial Pkwy
Windsor ON N9J 3W3 Canada**

Agenda:

TBD

Presentation Title: **Reducing Costs, Complexity and Quality Concerns**
Practical Strategies for Large Scale Fastener Welding Programs

Presenter: **Dan Cabanaw, Senior Account Manager**

Event Info:

CenterLine (Windsor) Limited newest division, the **Mechatronics Div.**, will be hosting the event. This facility is located within minutes of the Detroit/Windsor border and is part of their facilities campus.

CenterLine's **Dan Cabanaw**, Senior Account Manager, will cover the technical content for the evening. Using CenterLine's extensive experience in designing and building fastener welding systems, this presentation will outline common project management and integration issues faced by machinery builders and will provide suggested improvements to the overall integration process aimed at improving final equipment design, integration and operation. Among the factors covered will be: appropriate fastener selection, part stamping specifications, proper electrode consumable selection, welding schedules, benefits of equipment commonality and other project management considerations.

CenterLine (headquartered in Windsor, Ontario) is a Canadian based, privately held, corporation specializing in advanced automation processes and technologies that satisfy resistance welding, metal forming and cold spray application needs. It is established internationally with manufacturing and service support facilities situated in the USA, Mexico, Brazil, Germany, Romania, India and China. With over 60 years of business experience, CenterLine is dedicated to developing technologies and processes that assist customers in maintaining their competitive advantage.

Special Notes:

Individuals who attend will require a passport or enhanced driver's license to cross the border.

Please be advised that CenterLine has four (4) facilities located in LaSalle (a suburb of Windsor). **CenterLine's Mechatronics Division** located at **6290 Morton Industrial Pkwy** will be hosting this event. Since this facility has recently opened it appears as an open field when using Google maps. The attached map link can be used to generate driving directions from the border and to identify this division's location in relation to CenterLine's other facilities

RSVP:

RSVP required by Tuesday April 2, 2019.
